Terry Hughes Trophy Results
Summer 2012

The Terry Hughes Trophy is presented to the archer who after shooting at least four rounds of the Summer Evening Programme has reduced their handicap the most.

Four rounds were shot during May, June, July and August consisting of various Warwick's and Metre rounds. Where archers shot more than one Warwick or Metre round their lowest handicap ratings was used. Following the rounds shot during the first three months the resultant monthly handicap ratings were averaged. The lowest handicap rating shot in August during the various Warwick rounds was then compared against the average of the previous three. The person with the biggest reduction (a minus score indicating improved performance) wins.

24 archers in total shot at least one round. 13 shot at least one round every month to qualify for the final calculations. Those that shot insufficient rounds are shown as Did Not Qualify - DNQ.

I thank everyone for taking part and hope that you have enjoyed doing so. If the experience has increased your determination to improve your leisure shooting, or given you the push to try further competitions, then that's even better.

Congratulations to our winner Steve Green, and two runners up Lynn Fisher and Mo Roe . Lynn and Steve tied on -8 but when the other rounds shot were taken into account on back calculation, Steve just edged it.

Regards

John
6th October 2012

Key

NW – New Warwick,
30m-30 metres

LW – Long Warwick,
50m - 50 metres and so on.

W – Warwick,

SW – Short Warwick,

SJW – Short Junior Warwick
