| Total 31 | | | | | |

June was a selection of Warwick Rounds hence LW- Long Warwick, W- Warwick, SW- Short Warwick.

July was National rounds, N- National, SW- Short National.

I took the best score for each archer for these two months and found the relevant handicap. I then averaged the two. There should have been 3 to average but as the weather was so poor in May we missed that month.

August was three dozen at a 80 m face at 50 or 30 metres. Again I took each archers best score that month, found the handicap and compared that with the average of the previous two months. A better score produces a minus a worse one a plus.

There were a large number of club, county and EMAS records shot over the three months, a six gold end for Ian Prior and a number of 252 awards obtained. Thank you for all those, the majority of the club as it happens, who shot and special thanks to those who got there early to set up.

John 17/09/13.
