## Archery Training

At the recently held CCO meeting it was agreed that information would be sent out to all Coaches and Club Secretaries, asking them to carry out a survey to ascertain the interest in arranging for a series of Archery Training Events, over the forthcoming winter period.

There would be 3 Events:

One for the Juniors only

One for Intermediate Archers But they must have their own equipment

One for More Experienced Archer

As I'm sure you will all appreciate it is very difficult to arrange such events if the numbers of participants are unknown, we would therefore ask if all Coaches/Club Secretaries would circulate this information and compile a list of names of archers in each category who would be interested in improving their skill/knowledge of archery.

The full itinerary is not yet decided but it is likely there will be a mix of workshops and hands on Coaching with skill training being the main focus.

The cost would be in the region of £14 per person per event

We need a minimum of 28 Archers to each event to make the event viable

I would appreciate the list of interested parties by the 1<sup>st</sup> July complete with, if possible the e.mail numbers or telephone numbers of each potential participant, to enable entry forms to be sent out to give 100% entry numbers, which will enable a venue of a suitable size to be hired. The venue would be as near to a central area of Lincolnshire as possible.

For the Junior event we would need parental consent form signing by the parents or for the parents to be in attendance at all times

Your help in this survey would be much appreciated and look forward to a positive response.

Regards

Barry Molsom Senior Coach CCO Lincolnshire
