

PROGRESS UPDATE: UK COACHING FRAMEWORK

WHAT'S BEEN GOING ON SINCE YOU SIGNED-UP?

[Click on the blue links for more info](#)

As a [TRAILBLAZER 2](#) sport for the [UK Coaching Framework](#) archery is benefitting from external funding for coaching development, technical expertise and advice from sports coach UK.

[Framework England](#) is composed of archery representatives from all 5 English regions, and the English Archery Federation. The group is focussed on using the UK Coaching Framework as a reference for the long term development of archery coaching in England.

In England the WMAS, EMAS, SCAS, GWAS and NCAS regions, as well as 23 county associations, have [Signed-up](#) to the UK Coaching Framework. NIAS, SAA and WAA have Signed-up as well.

To move forward, we need to develop and deliver a World Class Coaching system for archery. Have your say about the [Vision](#), and the 'stepping stones' of our [Coaching Development and Delivery Plan](#).

Information from 229 clubs, 302 coaches, 33 CCOs and 7 RCOs was collected during the [Coaching Audit 2008](#). sports coach UK gave financial support for the audit, and Quicks have sponsored some of the prizes.

Take a look at the current [Archer Development Model](#), being designed as a tool to help all areas of the sport progress.

A [Coach Development Model](#) is also being designed to help provide support to coaches in a more personal way, and allow coaches to choose their own route for development.

As part of [consultation](#) with members, Amy Heppingstall from sports coach UK is supporting archery, visiting regions to gather feedback from coaches. So far meetings have taken place with EMAS, SCAS, WMAS and GWAS.

To help provide us with feedback, Framework England hope that Regions and Counties would like to put coaching development as a **regular agenda item** for meetings. You could discuss your own ideas or one of the above items, such as the Archer Development Model. Please email [FE member email address](#) with your feedback.
